Receive \$100 when you open a new Premier Checking Account! Simply open a new checking account today, add direct deposit and we'll deposit \$100 into that account.

Premier Checking provides value and benefits that you didn't know you wanted. Premier Checking pays you interest on any balance ... these interest rates are better than most of our competition's savings account interest rates. Premier Checking also gives you a 1-tier "bump-up" on certificates; the extra interest adds up and can be significant.
